

## Ascom DT290

### Enhancing mobility.

Maximum efficiency requires having your people in the right place at the right time. Availability no matter where you are is the key to successful, safe and efficient business.

The Ascom DT290 phone is easy to use and offers you a range of state-of-art functions, optimum speech quality, a cellular style user interface and ergonomic design to ensure maximum mobility and all the features you need for your daily work.

#### Full mobility

The Ascom DT290 is a sophisticated wireless phone for office environments. Providing a highly attractive price-performance ratio, the DT290 combines outstanding design with supreme sound quality to ensure full mobility in the workplace. The user-friendly menu makes accessing the wide range of features simple and straightforward.

#### Easy to use

The DT290 has a keypad with large buttons and five navigation keys. A special function key has been added to support handsfree speech, and access to voice-mail requires only a single key press. In addition, the high contrast display has a large viewing area and a backlight. The menu can be set to 17 different languages.

#### Convenient features

The telephone book stores up to 100 numbers and the last dialled, answered and missed calls are available for speedy redial. The integrated loud-speaker on the back of the phone offers you handsfree functionality for conference calls or when both hands are needed.

The vibrator discretely alerts you of incoming calls. Voice messages can easily be accessed by pressing the message key and with the integrated alarm clock you will not miss any appointments.

In addition, the Ascom DT290 supports all standard PBX functions and can access teleservices through built-in DTMF tones.

#### We meet your needs

Wherever you need reliable wireless communication, Ascom has the system that will answer to your needs. We have added that little extra to the concept of wireless communication.

## Features

### Handsfree speech function

A loudspeaker on the back of the phone offers excellent sound quality and can be used for handsfree speech and conference calling.

### Vibrator alert

For noisy environments or when discretion is required, the built-in vibrator makes silent calls "heard".

### Phone book

Contains up to 100 names and numbers. Supports Call-by-Name and Quick Call-by-Name for fast access.

### Redial

Enables you to redial the last 20 dialed, answered and missed calls.

### Missed call function

In idle mode, a "Who Called?" warning is displayed if there have been missed calls.

### Mute function

Press the Mute button to disconnect the microphone during a call.

### Illuminated graphic display

2 lines of text with twelve characters each, and one line of status icons are shown on the illuminated display.

### Phone & key lock

Protect the phone against misuse using a PIN code.

Protect the keypad against unintentional use using the key lock.

### Alarm clock

You can not miss it when the phone starts to vibrate, ring, and the warning and display lights start to flash.

### Preference settings

Personalize your phone by choosing settings such as key click sound, discrete ringing, melody selection, vibrating alert, key lock, PIN code, language, display contrast, display backlight, ring volume, phone lock, etc.
